## MEMORANDUM

**TO:** **Council Members**  
**FROM:** **Jennifer Light, Director of Power Planning**  
**SUBJECT:** **Power Plan Update**

### BACKGROUND:

Presenter: Jennifer Light

Summary: The Power Division is preparing the Council's Ninth Regional Power Plan. Since this is a long process with many interconnected components, staff plan a standing item at Council meetings to provide members with an update on the status of work to date and highlight the next steps. At the February meeting, staff will update on the status of scenario modeling and walk through upcoming meeting topics.

Relevance: Under the Northwest Power Act, the Council is required to review its power plan no less frequently than once every five years. The Council initiated its review of the power plan in February 2025, with a goal of developing a final power plan by November 2026.

Workplan: B. Development of Ninth Power Plan
