### **MEMORANDUM**

**TO: Council Members**

**FROM: Tina Jayaweera, Kevin Smit**

**SUBJECT: Update on Bonneville Power Administration's Energy Efficiency Program**

#### **BACKGROUND:**

**Presenter:** Jamae Hilliard-Creecy, VP of Energy Efficiency, BPA

**Summary:** Jamae will present on BPA's recently published [Energy Conservation Annual Review](#), discuss the broader value BPA sees in efficiency, and discuss the timeline and process in developing their next five-year Energy Efficiency Action Plan.

**Relevance:** BPA represents approximately 36% of the region's cost-effective energy efficiency potential and has specific action items related to conservation highlighted in the 2021 Power Plan.

**Background:** BPA has been actively engaging with its customer utilities to acquire energy efficiency for the past 40 years. Over the past decade, these public utilities have acquired more than 800 aMW of savings through programmatic initiatives, NEEA, and momentum savings. BPA's customer utilities implement efficiency programs within their service territories. Once complete, these savings are reported and approved by BPA for acquisition and customers are reimbursed through the Energy Efficiency Incentive (EEI) budget. Utilities also have the option to self-fund energy efficiency programs.
