March 6, 2006

To: Council Members

From: Doug Marker, Director
Fish and Wildlife Division

Subject: Review of the Fish and Wildlife Division work plan for 2006

PROPOSED ACTION:

That the Council review and endorse the Fish and Wildlife Division work plan for 2006 with discussion of specific amendments.

DISCUSSION:

In February I presented a proposed work plan for the Fish and Wildlife Division to the Fish and Wildlife Committee. State and Central staff participated in planning meeting to define the proposed work schedule. Chairman Karier has proposed revisions to the sections on research, monitoring and evaluation; and data management and I am attaching those proposed changes for your discussion. In another agenda item, we are discussing more specific tasks and prioritization for monitoring and evaluation guidance by the Council that bear on this work schedule.
