MEMORANDUM

TO: Power Committee

FROM: John Shurts

SUBJECT: CNSV-3

If you will remember, one of the conservation items (CNSV-3) in the Fifth Power Plan's Action Plan calls for the Council to undertake certain actions in pursuit of the goal of achieving the plan's conservation targets. At the April Council meeting, the Council approved a recommendation from the staff and then the Power Committee to follow a different set of implementation activities to achieve the same purpose. The Council also directed the staff to provide notice to the public of this change and allow any interested persons to submit comments or concerns. We asked people to submit any such comments by May 31, 2006. See <http://www.nwcouncil.org/energy/powerplan/cnsv.htm>.

That date has passed. We did not receive any comments. The Council said it would stay on this revised path unless or until it received comments that caused it to want to reopen that decision. We do not believe there is any reason right now to revisit the decision made in April. There is no need for the Council to consider this again, unless the members desire to take it up again. We do not plan to bring this to the Committee or the Council for further consideration. Please let us know if you desire to do otherwise.
