MEMORANDUM

TO: Council Members

FROM: Lynn Palensky

SUBJECT: Status of the Resources Report - CBFWA

Brian Lipscomb from Columbia Basin Fish and Wildlife Authority (CBFWA) will present the draft Status of the Resources Annual Report to the Council. In addition, he will demonstrate the website prototype for the project.

An earlier version was presented to the Council at the May meeting. This report is being developed by CBFWA and intended for use by managers, policy makers, and the general public. There will be a paper report as well as an interactive web version. The report will provide a summary by subbasin on:

- Salmonid resources, status, factors limiting production, and biological objectives for each species
- A map of each subbasin that depicts project locations, funding level and general project type
- Expenditures by organization type and activity type, and funding years
- Land ownership
- Select project accomplishments
