MEMORANDUM

TO: Council Members

FROM: Patty O'Toole

SUBJECT: Update on wildlife O&M data report

At the November Council meeting, staff from Bonneville will present data on wildlife mitigation project operations and maintenance (o&m) cost and other data that they have produced using data collected through PISCES.

In the FY 2007-2009 Fish and Wildlife project selection - programmatic recommendations the Council called for a review of appropriate funding levels for past wildlife mitigation acquisitions and for a comprehensive review of all o&m activities and development of a long term o&m plan. Data from Bonneville collected through PISCES will be an important part of these reviews.
