MEMORANDUM

TO: Fish and Wildlife Committee Members

FROM: Mark Fritsch, project implementation manager

SUBJECT: Follow up actions/tasks from Fiscal Year 2007 - 2009 project recommendations

PROPOSED ACTION:

The Council's recommendations for 2007-2009 fish and wildlife project funding conditioned a number of requests for project specific submittals, reviews, and decisions. At your committee meeting in March, Council staff will provide a summary and update on these deliverables. The Council staff also wants to ensure that the committee members are comfortable with the treatment of the conditions. This agenda item is for information only and no decision is requested.

BACKGROUND:

The Council decided on its final project funding recommendations to Bonneville for FY 2007-09 at the Council's October 2006. As part of these recommendations, the Council provided comments that were project specific as a condition to funding (see Attachment 1). These comments generally addressed concerns raised by the Independent Scientific Review Panel (ISRP) for the particular projects. Other project-specific comments addressed other needs of the Council and the program (i.e., step review), giving direction to Bonneville and the project sponsors. In addition, comprehensive and workshop approaches were defined for the projects in the Yakima Subbasin, Umatilla Subbasin, and in Lake Roosevelt.

The Council staff will continue to track, follow-up, and facilitate issue resolution for 2007-2009 projects that had conditional funding approval. The established review process (e.g., step review) will be used, and items that need a Council decision will be brought back for a recommendation.

503-222-5161 800-452-5161 Fax: 503-820-2370 Follow-up actions addressing additional information needs and not requiring a Council review will be addressed by state and central staff. These recommendations will be summarized stating the adequacies of the information received in addressing the conditions of the ISRP and the Council. This staff report will be distributed to Council members for review prior to being sent to Bonneville and the sponsor.

Attachment 1: Project specific conditions as part of the Council's 2007-2009 fish and wildlife project funding decision.¹

Project number, Title	Description of follow-up action/ tasks	Status
Mountain Columbia		
2007-265-00, Complete and Coordinate a Subbasin Plan for the Bitterroot Watershed	Funding for two fiscal years only, second year contingent on first year success, plan to be delivered by end of fiscal year 08.	BPA one year of funding
2007-235-00, Proposal to Create a Sub-Basin Plan for the Blackfoot River Sub-Basin	Funding for two fiscal years only, plan to be delivered by end of fiscal year 08.	BPA one year of funding
1991-019-03, Hungry Horse Mitigation Program	Work elements associated with Sekokini Springs Natural Rearing Facility and Educational Center are dependent on favorable step review. Master plan submittal due by May 2007.	
1991-019-01, Hungry Horse Mitigation/Flathead Lake	Funding contingent on ISRP, Council review of revised proposal. Revised proposal due end of December 06.	On January 9, 2007 the submittal was sent to the ISRP for their review.
1988-064-00, Kootenai River Native Fish Restoration and Conservation Aquaculture	The expansion (for sturgeon and burbot) Work Element 5a, dependent upon favorable step review, Council 3-step Process: Step 1. Deliverable (Master plan) due July 20, 2007.	Submittal scheduled for September
2002-003-00, Secure & Restore Resident Fish Habitat	Funding contingent on Council review of revised proposal, with improved selection criteria and objectives. Revised proposal due end of December, 06	On January 2, 2007 a submittal was received. Internal review is near completion

YKFP: 1988-120-25, 1995-063- 25, 1995-064-25 and 1997-013- 25	ISRP review seeks an organized funding review of the various YKFP pieces in the Yakima. The Council's draft funding recommendation calls on the sponsor to consider adapting and using the annual Yakima project review be adapted to this end. ISRP associated a number of Fundable (Qualified) ratings with these comments, but not in expectation that funding be put on hold pending the review. As Council has asked for in the past, a Master Plan is needed for fall Chinook and coho elements of the project.	
Umatilla Subbasin: 1983-435- 00, 1983-436-00, 1987-100-01, 1987-000-02, 1988-022-00, 1989-027-00, 1989-035-00, 1990-005-00, and 1990-005-01	ISRP Not Fundable (Qualified) and Fundable (Qualified). Most of the habitat, production, o&m and m&e projects in the Umatilla received these ratings from the ISRP based on comments from the ISRP that projects in the subbasin need a thorough review of how they work together (in a basin with a subbasin plan ISRP approved of). ISRP does not appear to recommend limiting funding at this time, but strongly recommending review. Council's draft recommendations call on the project sponsor to work with the Council and others to structure a Council/ISRP review of the subbasin effort in the Umatilla at some point in the next year or two, a review that might also be useful for insights into things the Council needs to accomplish in next program amendment process.	Umatilla Projects Review (UPR) summary document submitted on May 1; ISRP review/site visit and review May/June; Council action August/September
