MEMORANDUM

TO: Power Committee

FROM: Terry Morlan

SUBJECT: Comments and Recommended Responses on Revised Fuel Price Forecasts

The Council released draft revised fuel price forecasts for comment at the July Council meeting. The comment period ended on Friday August 10 and the Council included an opportunity for public comment at its August meeting in Spokane. I will summarize the comments we have received and describe how I have responded. A summary of comments and responses and a revised fuel price forecast paper with changes in redline are attached. A clean copy of the forecast paper is included the Council packet.

In summary we received no comments from the general public. We did receive some additional comments from Natural Gas Advisory Committee members and a few clarifying questions from users of the forecast. The forecasts themselves were not changed from the draft and only minor changes to the text of the paper were made.
