MEMORANDUM

TO: Fish and Wildlife Committee Members

FROM: Jeff Allen, Policy Analyst

SUBJECT: F.I.S.H. (Follow Idaho Salmon Home) – Web access to salmon and steelhead information

PRESNTER: Peter Hassamer, Anadromous Fish Manager, Idaho Department of Fish and Game

This is an informational presentation on a recently-released web tool. The Idaho Department of Fish and Game launched a web site that allows users to access information on salmon and steelhead in Idaho. An integral piece of the web site is the Life Cycle Navigator, which allows users to access information across the life cycle of a specific group of fish. The web site provides access to information frequently requested by managers and researchers throughout the basin and provides links to reports that are the source of that information.
