MEMORANDUM

TO: Fish Committee Members

FROM: Stacy Horton
Policy Analyst/Biologist, Washington

SUBJECT: Fish and Wildlife Program Action Plan Spreadsheet

PROPOSED ACTION: Update

BACKGROUND:

Presenter: Stacy Horton

Summary: The Council adopted the *Columbia River Basin Fish and Wildlife Program* in October 2014. A new format was utilized that will allow the Council to identify, direct, and track actions adopted as part of the program.

Relevance: The Plan includes all General Measures from the newly adopted Fish and Wildlife Program. Responsible entities, timeframes, forums, lead Council staff, milestones and products are identified. Clear direction is provided in order to help guide and prioritize work for the Council and others. Unlike previous programs, this plan will help to evaluate progress and accomplishments on an ongoing basis, and prior to the development of our next fish and wildlife program.

Workplan: Lynn Palensky provided the 2015 annual Council staff workplan at the Eugene Fish Committee meeting last month. While the workplan Lynn

presented is specific to Council work, this action plan is much broader, and identifies all work in the Fish and Wildlife Program contained in General Measures.

Background: The Fish Committee reviewed the format for this plan at the December 2014 meeting. Information was only partially completed at that time.
