### MEMORANDUM

**TO: Council Members**

**FROM: Ben Kujala**

**SUBJECT: Outline of the Power Plan**

#### **BACKGROUND:**

**Presenter:** Ben Kujala, Director of Power Planning

**Summary:** The Northwest Power Act lays out directions for what should be included in a Power Plan. In March of 2019, staff discussed a high-level approach to how we would organize the plan document in a way that mapped easily to the required plan elements. The intent of that organization structure was to keep the document focused and succinct, then to include a broader set of supporting material on our website. Staff discussed the approach to developing this supporting material with the Power Committee in July of 2020.

In this presentation, we will further expand on the material we anticipate drafting for the plan document. Since this document is a draft for Council consideration, we will send it to the full Council the Monday ahead of the Council meeting after incorporating feedback from the Power Committee.

**Workplan:** A.1.2 Draft written material for the Power Plan

**Background:** [Presentation on the high-level approach and organization of the power plan](#)
