MEMORANDUM

TO: Power Committee

FROM: Ben Kujala

SUBJECT: Outline of the Power Plan

BACKGROUND:

Presenter: Ben Kujala, Director of Power Planning

Summary: The Northwest Power Act lays out directions for what should be included in a Power Plan. In March of 2019, staff discussed a high-level approach to how we would organize the plan document in a way that mapped easily to the required plan elements. The intent of that organization structure was to keep the document focused and succinct, then to include a broader set of supporting material on our website. Staff discussed the approach to developing this supporting material with the Power Committee in July of 2020.

Staff will be discussing the outline with the committee and be looking for any feedback from the committee on the contents to incorporate into the presentation of the same material to the full Council two days after this presentation. An outline draft will be provided separately from the packet to the committee ahead of the meeting.

Workplan: A.1.2 Draft written material for the Power Plan

Background: [Presentation on the high level approach and organization of the power plan](#)

[Presentation on the development of the supporting material](#)
