MEMORANDUM

TO: Power Committee Members

FROM: John Shurts, General Counsel
Terry Morlan, Director, Power Planning Division
John Fazio, Senior Systems Analyst

SUBJECT: Draft Version of Appendix M: Integrating Fish & Wildlife and Power Planning

The version of Appendix M (M_111809JF.doc) in this packet incorporates staff revisions that are mostly editorial or made for clarification. They also include suggested editorial changes received in public comment. In some cases the text was revised to reflect updated information or analysis.

The bulk of the revisions occur in the discussion assessing fish and wildlife costs and in the discussion of future uncertainties. Recall that the section on costs was drastically reduced from the version that was sent out for public comment (M_090309.doc).

Discussions among Council members regarding the language for fish and wildlife costs are ongoing. As an alternative to the language presented in that section in the current version ("Assessing Costs" page M-18), Council Member Karier has suggested a revised version of that language (Ch 13 F&W Cost TK.doc, included in this packet) that would be included at the end of Chapter 13 (Bonneville Obligations). The section in Appendix M could then be removed or modified to conform to the revised language in Chapter 13.
