

LOWER COLUMBIA  
SALMON AND STEELHEAD  
RECOVERY  
AND  
SUBBASIN PLAN

*Technical Foundation  
Volume VI  
Appendices*

Prepared  
For  
Northwest Power  
And  
Conservation Council

MAY 28, 2004  
DRAFT

Prepared By:  
Lower Columbia Fish Recovery Board

## *Preface*

This is number six of six volumes of a Technical Foundation for Recovery and Subbasin Planning prepared under direction of the *Washington Lower Columbia River Fish Recovery Board*. This information provides a basis for an integrated Salmon Recovery and Subbasin Plan prepared by the *Fish Recovery Board*. The Technical Foundation is an encyclopedia of information relating to focal and other species addressed by the plan, environmental conditions, ecological relationships, limiting factors, existing programs, and economic considerations. The Technical Foundation summarizes existing information and new assessments completed as part of the planning process. A separate Executive Summary document provides an overview of the entire Technical Foundation.

Technical Foundation volumes include:

Vol. I	Focal Fish Species	<i>Species overviews, limiting factors, recovery standards, and status assessments for lower Columbia River chinook salmon, coho salmon, chum salmon, steelhead, bull trout, and cutthroat trout</i>
Vol. II	Subbasins	<i>Fish populations and habitat conditions in each of 11 Washington lower Columbia River subbasins</i>
Vol. III	Other Species	<i>Descriptions, status, and limiting factors of other fish and wildlife species of interest to recovery and subbasin planning</i>
Vol. IV	Existing Programs	<i>Descriptions of Federal, State, Local, Tribal, and non governmental programs and projects that affect or are affected by recovery and subbasin planning</i>
Vol. V	Economic Assessment	<i>Potential costs and economic considerations for recovery and subbasin planning</i>
Vol. VI	Appendices	<i>Methods and detailed discussions of assessments completed as part of this planning process</i>

This work was funded by the *State of Washington* and the *Northwest Power and Conservation Council*. The Technical Foundation was completed primarily by the *Washington Lower Columbia Fish Recovery Board*, *Washington Department of Fish and Wildlife*, *S.P. Cramer and Associates*, and *The White Company*. This second draft of the Technical Foundation incorporates suggestions and revisions provided by a wide array of agency and public reviewers of an initial draft distributed in 2003. Additional opportunities for review and revision of the current draft will occur as part of ongoing recovery and subbasin planning processes

# **TABLE OF CONTENTS**

---

- 1.0 POPULATION RANKING**
- 2.0 RUN RECONSTRUCTION**
- 3.0 COHO CAPACITY ESTIMATION**
- 4.0 INTEGRATED WATERSHED ASSESSMENT (IWA)**
- 5.0 INTEGRATED WATERSHED ASSESSMENT RESULTS**
- 6.0 APPLICATION OF THE EDT MODEL**
- 7.0 DOCUMENTATION USED IN THE EDT MODEL**
- 8.0 ANADROMOUS FISH BARRIERS**
- 9.0 EDT COIMPARISON**
