Role of GRAC

- Advisory committee established to assist in development of Council's Power Plan
- Two year charter
 - Renewed March 2014
 - Members appointed May 2014
- GRAC serves in advisory capacity
 - No votes are taken
 - Role is to review information, vet assumptions and information, and provide feedback to the Council
- Aim for active participation and exchange of ideas and information

Council Seeking Comments

- Released two issue papers in September
 - Methodology for Determining Quantifiable Environmental Costs and Benefits
 - High Level Indicators for the Power Plan
- Comments are due October 31, 2014
- See the Council website for issue papers and information

Environmental Methodology

Specific issues and considerations for comment:

- Residual environmental effects beyond regulatory controls
- Environmental effects of resources not yet subject to regulatory control, esp. carbon emissions
- Quantifiable environmental benefits
- Environmental effects of new renewable resources

Thank You

Advisory committees play an important role in the Council's power planning process and we appreciate your participation and expertise.

Please don't hesitate to contact us with any questions or comments.
